Summary

Passionate frontend developer with a strong command of JavaScript and React.js, skilled in building user-friendly, responsive web applications. Experienced in modern design tools and CSS frameworks, with a flair for UI/UX design.

Technical Skills

- **Languages:** JavaScript, HTML, CSS
- **Frameworks/Libraries:** React.js, Tailwind CSS, Bootstrap 5
- **Design & Prototyping:** Figma
- **Tools & Platforms:** Git, VS Code, Chrome DevTools

Professional Experience

Software Developer

SAMIS Software Limited – Nakuru, Kenya (October, 2023 – August, 2024)

- Developed and maintained user interfaces for school websites & progressive web applications using React.js, ensuring cross-browser compatibility and responsive design.
- Collaborated with designers using Figma to implement visually appealing, user-centric layouts that enhance user experience.

- Optimized components with Tailwind CSS and Bootstrap 5, reducing development time and improving CSS efficiency.
- Implemented best practices in code quality and performance, contributing to a 20% faster load time.

Frontend Web Developer

Side Hustle Internship – *Nairobi, Kenya* (February, 2022 – August, 2023)

- Built interactive, scalable web pages using JavaScript and React, contributing to an improved user engagement in their online shopping experience via our web app.
- Engaged in code reviews and worked closely with back-end developers to create seamless, integrated front-end solutions.
- Enhanced the styling of existing projects with Tailwind CSS and Bootstrap 5, increasing productivity by 20%.

Projects

Portfolio Website:- <https://gichuremaina.netlify.app>

- Designed and developed a personal portfolio using React.js, showcasing frontend projects and design capabilities.
- Integrated themes, animations, and styled components using Tailwind CSS, resulting in a visually dynamic and user-friendly interface.

Mern Store E-commerce Project:- <https://www.kimiritiaholdings.com>

- This is an E-commerce web application for a multi-vendor store owner for selling merchandise online to clients.
- It also has a progressive web app that allows users to navigate the website on their mobile phone easily hence improving the user experience of the customer.
- Key technologies used to develop this application; JavaScript, React.js, Tailwind CSS, Bootstrap 5, Node.js
