Professional Summary

I am a skilled software developer with a strong background in building and maintaining applications. My expertise lies in designing, developing, and optimizing software solutions that meet client needs and enhance user experiences. With a keen eye for detail and a commitment to quality, I am dedicated to delivering high-performing and scalable applications that drive business success.

Work Experience

Frontend Developer
Samis, Nakuru
November 2022 – June 2024

- Developed and maintained responsive and user-friendly interfaces using React.js, ensuring seamless user experiences across multiple devices.

- Collaborated with backend developers and designers to implement new features and enhance existing ones.

- Optimized web applications for maximum speed and scalability, contributing to improved performance and user satisfaction.

- Participated in code reviews and provided feedback to enhance code quality and maintainability.

Education

Bachelor of Science in Information Technology
Cooperative University of Kenya, Nairobi
2018 – 2021

Skills

- **Coding:** Proficient in writing clean, efficient code, particularly in JavaScript and React.js.

- **Debugging:** Strong ability to identify and resolve issues in code, ensuring optimal functionality of applications.

- **Frontend Development:** Expertise in developing responsive and user-friendly interfaces using React.js.

- **Software Proficiency:** Familiar with version control systems like Git, as well as tools like Visual Studio Code and npm.
